TOWER CRANE LOCATION

JUAN SANTAMARIA INTERNATIONAL AIRPORT

(MROC)

The Civil Aviation Authority announces that, effective **April 8, 2025**, and until **March 31, 2026**, as part of the expansion projects at Juan Santamaría International Airport (MROC), caution is recommended due to the location of a lighted and marked tower crane. This tower crane is located specifically on the airport's transition surface, on the northwest side of the Control Tower, as detailed below:

Tower Crane Data

Crane ground level (m.s.n.m.)	Crane height (m)	Maximum elevation of the crane (m.s.n.m.)	Operating radius (NM)	WGS-84 Coordinates	Date of completion of works
919.691	24.02	943.7	0.027	095952.2599N / 0841219.595981W	31/03/2026
