CAUTION DUE TO PLANNED WORKS
"EXTENSION OF THE REMOTE APRON TO THE WEST AND
COMPLEMENTARY WORKS"
JUAN SANTAMARÍA INTERNATIONAL AIRPORT
(MROC)

The Civil Aviation Authority, through AERIS, informs airlines and service providers at Juan Santamaría International Airport (**MROC**) of the planned work being carried out at the airfield, called **Project A-01 – "Extension of the Remote Apron to the West and Complementary Works"** with the following details:

- **Execution period:** November 2025 – December 2026.
- **Location:** West side of the current Remote Apron and surroundings of the heliport.
- **Detail:** Extreme caution is requested due to the presence of construction work in progress and personnel/equipment working.

Specific impacts on facilities (parking positions, taxiways, temporary obstacles, among others) will be communicated as work progresses, via NOTAM or other aeronautical publications.
